

EXCURSION VR1

MALCESINE: „FUBIA“

POINT AND TIME OF MEETING: 9.00 AM TO CABLE CAR STATION MONTE BALDO

HOW TO GET: ON FOOT OR WITH TOURISTBUS

LENGTH: APPROXIMATELY 6 KM

ALTITUDE: ABOUT 1350 M – **HIKING TIME :** 3 – 3,5 HOURS

Description: This route is part of the most ancient paths of Malcesine who once brought to the olive groves situated on the plateau.

The walk starts at the valley station of the Monte Baldo cable car.

After covering a piece on the sidewalk he turns to the mountain, where soon you enter in the historic "Via delle Vacche", an ancient cobbled road uphill. Turning around, you can admire the castle of Malcesine with Lake. The path runs through olive groves and small houses until you reach the road to St. Michael, which is crossed. From here the road rises slightly, passing near a rural house with olive groves to enter later in the underwood and get below the Monte Fubia. It's time for a break and a snack. For the return you pass a stretch in the woods and in part it is the same route.
